

## DATA CARE QUALITY POLICY

Data Care is committed to providing efficient, safe and reliable first choice software solutions, supported by a mentored team, from generation to generation.

Our objective is to provide proven products and services through our alliances with strategic partners to design, customize, develop, implement and support Information & Communication Technology (ICT) solutions that exceed the standards required by our customers, statutory and regulators. With a competent and motivated work force we shall implement and continuously maintain our commitment to these objectives through a dynamic Quality Management System based on ISO 9001:2015 Standard.

Quality control is an integral part of all the company's management and service delivery. It is not a separate element or function; each and every aspect of the day-to-day operations of the company shall be conducted in accordance with the quality policies. It is designed to integrate human, technical and material resources in a manner that results in optimum service that is consistent with the highest possible quality standards.

There are no exceptions to this commitment. Each and every employee, including management, is expected to understand and work towards our quality commitment.

This Quality Policy Statement shall be presented in areas accessible to all interested parties.

This Quality Management System reflects the company's total commitment to achieving the goal of meeting the needs of our customers efficiently and safely. The Quality Management System shall be periodically reviewed to continually improve Data Care effectiveness.
